Summary

Full Stack Engineer with 5 years of industry experience in Finance & Credit Ratings. Skilled in JavaScript, NodeJs, Java, automation and AI Assisted development with a strong focus on writing clean and reusable code. Open to learning new technologies and staying up to date with the industry standards.

Work Experience

Senior Software Engineer (S&P Global, Toronto, Canada)

[Oct 2025 – Present]

Software Engineer II (S&P Global, Toronto, Canada)

[Jan 2023 – Oct 2025]

- Developed **Micro Frontends** (MFE's) using **React, Redux Toolkit, Webpack, TypeScript**.
- Developed **Micro Services** using **Java, Spring Boot, AWS, SQL, Elastic Search**.
- Created **internal scripts** and **GitHub instructions** for automation of code and saving **LLM Tokens**.
- Used **AWS S3, Lambda, ECS, EC2, CloudWatch** to build, deploy and monitor scalable cloud-based applications and services.
- Used **AI-assisted** tooling like **Copilot** for developing and document features.
- Optimized **LLM token usage** and API costs by implementing GitHub skills and using correct AI model.
- Actively participating in scrum, refinements, PI planning and assigning story points, raising risks, dividing stories to task etc.
- Actively **reviewing PR's** and suggesting changes to ensure clean, readable and scalable code.
- Optimized application by using **lazy loading, Suspense, Intersection Observers, Skeleton Loading** and **Infinite Scrolling**.
- Mentored Junior engineers through **pair programming, KT's, technical guidance** helping to deliver high-quality code.
- Used several JS libraries such **AG-Grid, HighCharts, Leaflet, Lodash, PDFMake** and several **internal libraries**.
- **Automated** and **streamlined CI/CD** with pipelines, reducing 40% of time in delivery process.
- Writing Test scripts using **Jest** and **JUnit5** for **TDD** for complex algorithms, assuring no bugs on production environment.
- Developed pixel perfect GUIs and responsive products with **accessibility and WCAG principles** (AA Standard).

Jr. Software Engineer (Cloud for SMB Consulting (previously InfoSet Consulting), Toronto)

[Sept 2021 – Dec 2022]

- Worked on an several SASS products using **React, Redux, Java, Spring Boot, AWS, SQL, MongoDB**.
- Regular interactions and meetings with stakeholders and PMs for feedback and improvements.
- Used **AWS S3, DynamoDB, Route 53** for storing and developing scalable services.
- Ensured writing of clean, readable and scalable code through code reviews.
- Implemented solutions using frameworks related to **OAuth, OpenID Connect, JWT** and **Firebase**.
- Implemented **CI/CD** pipelines with **AWS code pipeline** and **GitHub actions**.
- Integrated **Power BI** reports, dashboard in applications.
- Created and documented **RESTful API's** using technologies **Express, Node.js, Swagger, Redis**.
- Used several 3rd party API's and integrations from **Clio, Intuit, Google, Stripe, PayPal**.

Technical Skills

Frontend: HTML, CSS3, SCSS/SASS, Webpack, React, TanStack, Next, Angular, TypeScript, Redux, RTK, NgRx, Jest
Backend and Databases: Node, Express, NestJs AWS, Azure, Elastic Search, GraphQL, SQL, MongoDB, Redis, Firebase
Programming Languages: JavaScript, Java
Tools: AWS, Power BI, Bash, WordPress, AEM, Git, GitHub, GitLab, Figma, NPM, Yarn, Docker, Azure Devops, Jira
Languages: English (Fluent), French (Intermediate)

Education

Bachelor of Software Engineering (B Tech)

[May 2024 – Aug 2026]

McMaster University, Hamilton, Canada (GPA – 3.4 / 4.00)

Advanced diploma in Computer Programming (CPA)

[Jan 2023 – Dec 2023]

Seneca College, Toronto, Canada (GPA – 3.6 / 4.00)

Diploma in Computer Programming (CPP)

[Jan 2020 – Aug 2021]

Seneca College, Toronto, Canada (GPA – 3.51 / 4.00)

Certificates

- Amazon Web Services (AWS) Developer Associate: **Achieved 79%**.
- TEF Canada: **Achieved B2 proficiency in French**.
- freeCodeCamp: [Responsive Design Certificate](#)
